John D. Washburn, of Massachusetts. to be Envoy Extraordinary and Minister Plenipotentiary to Switzerland.
George C. Tichenor, of Illinois, to be Assistant Secretary of the Treasury, vice J. H. Maynard, secretary resigned.

The Senate went into executive session immediately, and the nominations of Palmer, Swift and Washburn were referred to the Foreign Affairs Committee, and the nomination of Tichenor to the Committee on Finance.

WHO THEY ARE.

The Four Men Whom the President Appointed Yesterday.

South Pacific Squadron.

Washington, March 1th.—Two of the nominations made to-day by President Harrison are of men who expected to receive Cabinet appointments. Ex-Senator Palmer was for a long time thought to be Harrison's choice for Secretary of Agriculture. He was set aside for Jere Rusk.

As long as California was in the race for a Cabinet office Mr. Swift was the President's choice for a place. When it was decided that the Pacific coast should not have representation in the Cabinet Mr. Harrison determined to give him a foreign mission. His post is not of the magnitude that Californians hoped he would receive, but it is a position in which he can advance the commercial interests of the Pacific coast. Mr. Swift's appointment to Japan is construed to mean that Fred Grant will be appointed Minister to China.

Mr. Washiburn, of Massachusetts, is at the head of the Washburn & Moon Manufacturing Company of Worcester, Mass. He is a member of the powerful Washburn family, of which Senator Washburn, of Minnesota, is connected. Assistant Secretary Tichenor has been for many years special agent of the Treasury Department, and is thoroughly familiar with the customs laws. He is a native of Illinois, and his appointment is a case of the selection of the fittest man for the place without political backing.

AFTER THE BATTLE.

Swift's Appointment to Japan and Wash

wift's Appointment to Japan, and Why

Washington, March 11th.—There has been an active inquiry at the Washington Bureau of the California Associated Press to-night by politicians and correspondents of Eastern newspapers to learn whether the appointment of John F. Swift as Minister to Japan had any political significance. The facts about Swift's appointment can now properly be related. It was general Harrison's original intention to have appointed Swift as a member of his Cabinet—probably not Secretary of the Interior, but Attorney-General or Secretary of the Navy. Mr. Estee, however, loomed up as an applicant for Cabinet honors. He secured petitions from the Republican members of the California and Nevada Legislatures asking his appointment, and General Harrison was inundated with letters and telegrams from Estee and his friends praying for his appointment. It Was Made.

General Harrison was inundated with letters and telegrams from Estee and his friends praying for his appointment.

General Harrison, while recognizing Estee's abilities, did not prefer him as a member of his official household, neither did he think it wise to oppose the wishes of the Kepublicsn organizations of the two Pacific States by choosing a man of his own selection to represent that section in the Cabinet. Consequently the coast today is unrepresented in the Executive 1 epartment of the Government.

Mr. Ewit reached Washington last Thursday night, called hither to represent California in the Chin Chang Ping case. On Friday morning he called upon the President and found him surrounded by a crowd of politicians. General Harrison asked him to dine with him that night, and the invitation was accepted. They had an opportunity for a half-hour's private conversation, and while the President oid not say he intended to confer any official honor upon Mr. Swift, his remarks indicated that he intended to recognize the coast's interests by a foreign appointment. The California delegation in Congress was anxious to urge upon the President the appointment of Swift to a Foreign Mission, but it is understood that he counseled delay. Mr. Swift had no notion of what Mission the President intended offering him, but it is doubtful if a place personally more agreeable could have been chosen for him than Minister to Japan.

intended offering him, but it is doubtful if a place personally more agreeable could have been chosen for him than Minister to Japan. The President was of the opinion that the Chinese Mission should not be given to Californian, for the reason that it is possible the Chinese Government might not have received cordially as Minister a man from the State that has led in the hostility to Chinese immigration. THE OTHER APPOINTMENTS. Senator Palmer's friends say there is som

Senator Palmer's friends say there is some doubt whether he will accept the Spanish Mission but it is not believed the nomination would have been made without the President had been satisfied of its acceptance, and Mr. Blaine has the satisfaction of having appointed Perry Belmont's successor as the first act of his Administration, but Belmont was beforehand, and cabled his resignation on March 4th.

There has been a lively hustle for news respecting John D. Washburn, of Worcester, Mass., appointed Minister to switzerland, and it has been almost as hard to establish his identity as that of the Tichborne claimant. He is Senator Hoar's appointment, and none of the members of the Massachusetts delegation knew of it until his name was sent to the Senate. Washburn to out the first of the senate. bers of the Massachusetts delegation knew of it until his name was sent to the Senate. Washburn is not of the manufacturing firm of Washburn & Moen, as was first announced. He is a rich man, about 55 years of age, who despises trade, but has a fondness for insurance investments. He is one of the Trustees of the Clark University, at Worcester, Mass, and Senator Hoar frankly says that the main object of his acceptance of the Swiss mission is the study of the educational methods of Switzerland.

Senator Palmer's life is too well known to require description.

TALKING THEM OVER.

Applicants for Office.

Washington, March 1:th.—The members of the California delegation held a meeting this afternoon in Senator Stantord's committeeroom at the Capitol to discuss the question of the distribution of Federal patronage in that State. The meeting was only preliminary to other conterences to be held, and was for the purpose of securing an interchange of views respecting the proper way to fill the offices. Definite action was taken in one case only. All the members of the delegation agreed to support the claims of Henry Osborne, of the Los Angeles Express, for Public Printer. They signed a petition asking the President to appoint him to this office, and to morrow the eutire delegation will visit the White House and make the request personally, as well as in writing. Mr. Osborne is pushing his fight at a lively rate, and he thinks he has a chance to win. There are strong candidates for the place, however, in the persons of Captain Merceith of Chicago, William Halloway of Indianapolis and D. M. Helm of Muncie, Ind. There is a host of candidates for this office.

The discussion in the meeting to-day indicated

Senator Stanford, by virtue or his position, will probably wield a commanding influence in filling these places. Mr. Morrow has his personal views respecting the merits of the candidates for the different rederal offices in that city, and will try to secure some share of recognition. It is probable that it he could secure the appointment of Naval officer and Postmaster he would be willing to let every other Federal office in the city be disposed of by senator Stanford.

A WARM CONTEST.

The Pacific Coast and Colorado After the Washington, March 11th.—A position, next to that of Secretary of the Interior, which the California people desired to be given the Paenic coast, is that of Commissioner of the General Land Office. The entire California, Nevada, Oregon and Northwestern Territorial delegations have united in recommending the appointment of ex-Representative Wren, of Neward California and Californi

vada for the place. Senators Teller, of Colo-rado, and Plumb, of Kansas, are pushing as strongly as possible ex-Senator Chilcott. of Col-orado, for the place. Between the two it would not be surprising if a third man was chosen.

"TERROR OF THE SEAS." The New War Vessels to be Built by the Government.

Washington, March 11th.—Unless unforeseen obstacles are encountered, within a few months after the beginning of the next fiscal year (July 1st), contracts will be let for the construction of new war vessels which will, in the aggregate, increase the tonnage of the navy nearly 15,000 tons. Although the majority of the new vessels will be small craft, compared with the monster ironclads of Europe, they will embody in their construction the latest improved ideas of high speed and heavy armament, and will be very formidable ships of war.

When Secretary Whitney relinquished his office he left, as a legacy to his successor, the building of eight new vessels, the authority for whose construction was given by the Fiftieth WASHINGTON, March 11th .- Unless unfo

building of eight new vessels, the authority for whose construction was given by the Fiftieth Congress. The list includes three 2,000 ton cruisers, or gunboats vessels somewhat larger than the Yorktown, just finished, and similar to that vessel in many respects, although embodying many new features. There will be two 3,000-ton cruisers. These vessels will be smaller by 1 0,00 tons than the new cruiser Newark, but by law they are required to attain the extraordinary speed of twenty knots an hour. If this requirement is met and the heavy ordnance now in contemplation supplied, these fleet boats will be the terror of the seas to foreigners. A great iron-clad of 7,000 tons, a protected cruiser of 5,300 tons, and a small gunboat of 800 tons burden, complete the list. The designs for these vessels have already been prepared by the Naval Board and await approval by the Secretary.

In addition to the vessels above described, Congress, at its last session, provided for the construction of four more cruisers, including Thomas' cruising monitor, and in an emergency their construction could be commenced within the present year.

The discussion in the meeting to-day indicated that, while it might be possible to reach some harmonious agreement respecting the candidates for two or three offices. in the end Senator Stanford and every Representative would have to be guided by his personal sense of the fitness of the different candidates. General Vandever, so far as his district is concerned, is pract cally independent of his colleagues. Milwaukee Aroused Over the Debaucker of Girls by Chinese.

Milwaukee, March Ilth.—The examinations of the two Chinese laundrymen, Has Ding and Sam Yip Ya, charged with enticing little girls to their dens and ruining them, began this morning. The names of at least twenty victims are known, their ages ranging from 9 to 12 years. Three of them told their stories in Court to-day, and additional evidence will be taken to-morrow.

to-day, and additional evidence will be taken to-morrow.

The disclosures are so shocking that a strong feeling against all the Chinese in the city prevails. The details of little girls' testimony are unfit for publication.

Forty policemen were out to-day to protect the prisoners en route between the jail and Court-house. A crowd of 20,000 men and boys followed them to the Court-house in the morning, but no violence was attempted.

RAIDING THE HELL-HOLES. After the adjournment of the Court a large portion of the crowd proceeded to wreak vengeance upon the habitations of the Chinese on Chestnut and Vliet streets. At the former place windows were smashed and general havour raised with the premises, the inmates fleeing in terror.

In Vliet street the crowd contented itself with throwing filthy liquids, by means of garden hose, over the washed and unwashed garments in the shop.

Demonstrations were also made against the laundries in other portions of the city, but in all cases the police dispersed the mob before violence was offered to the Celestials, who—to tell the truth—made themselves exceedingly scarce as soon as an opportunity offered.

NATURE OF THE TEXTMONY. NATURE OF THE TESTIMONY.

The first witness at the trial to-day was a 13-year-old girl, who testified to having been debauched by Hah Ding, who lured her into his sleeping apartment. A 9-year-old girl was the next witness, and testified to a similar crime by Hah Ding. A third child corroborated the story.

ONE CHINAMAN ALMOST LYNCHED. ONE CHINAMAN ALMOST LYNCHED.

LATER—The streets in the vicinity of the Chinese laundries have been thronged with crowds of men and boys to-night. The doors and windows of half a dozen laundries had been smashed in with rocks before the police could arrive to disperse the crowd. At one point an unlucky celestial fell into the hands of the mob, who began yelling for a rope to string him up, and he would have fared badly but for the courage of one policeman, who protected him until assistance arrived.

Late to-night the crowds are dispersing, and no more trouble to-night is probable.

SAN DIEGO, March 11th.—Frank Avery, Chief of the Fire Department, who was charged with having stolen some shoes from a store during a recent fire, has been honorably acquitted. It has developed that the goods were sent to his house during the progress of the fire for the sole purpose of getting him in trouble. Chief Avery was an old and respected citizen of Sacramento, where for several years he was a member of the City Board of Education. The best citizens of that city indore him as a man of upright character and one in whom the people there have the highest confidence.

It was at first believed in the Capital City that the affair was a practical joke of some sort. It is as fine a ticket as was ever criticism; it appeals not only to the party at hard toil in this city, and built up a

that should be enacted for the public good. What this city needs at all times is competency, courage and conscience in office; and has over and again been indersed by assurance of these essentials by years of trial in important trusts. Why then should for the people of Sacramento to awake to the full realization of the truth, that there | place over any others. are vicious influences at work in their midst which are resolved that no man shall serve the people who does not first swear allegiance to such influences, and recognize them as superior. The Republican party is not, for sooth, to presume to put a ticket to the fore that is manly and independent in the

essentials in which independence is the highest order of loyalty to the party. It is choice of the party; it did its work wisely and well in nominating a ticket of true men; men who can be trusted in every walk of life, official and private. We have no doubt of the result. Some

NEW CHARTER FALLACIES.

the charter and the laws of 1862.

The fact is that such a charge, of discov- act in the manner described after voting. ery of illegitimacy, is untrue-it is election They always make conspicuous display of twaddle, intended simply to catch votes, and their folded tickets, and no sooner reach that is all there is in it. The Legislature the ballot-box than they fall out and take gave the city its present charter. It was new places in the line. These vote-thieves enacted under the Constitution. Under it can be defeated by the presence of citizens the city has enforced the laws.

But the new charter question is not an issue in this election. Suppose, however, that we do need a new charter; that we must have it; is any man so insane as to believe John Stevens, whom all admit is a t ue, just, courageous, able man, will refuse to vote to submit the matter, as the law requires must be done, to the people? Suppose it is true that we need a new

Who the possibility of war. wants any man to say more than that? Whoever does prejudges, goes off at a tangent, proves his incapacity for delibera-

tion and his unfitness for the Trusteeship. Elsewhere we print a communication from a lawyer of prominence, who favors a new charter. He shows that the question cuts no figure in this election. His communication should be read by any who views we have expressed.

THE PLEDGED MAN.

The specifically pledged man is always a a disadvantage in a campaign in a municipa relection where the main questions are those of the domestic economy of the city. It was a mistake some citizens made who re cently got together and attempted to pledge candidates on questions outside of the election. They saw their mistake and shandoned effort in that direction. John Stevens, responding to them, said in effect I have not sought office. If the people want me in office, let them trust me when I become a deliberator. I will not pledge myself against anything you or anyone else presents. I will promise no office, patronage or place to anyone. If the people want me they must take me free to act as my judgment, good counsel and conscience advise, and as wisdom shall determine for the best interests of the city P. Stanton. where I have made my home for thirty

Good citizens should come to the polls to-day, and by their presence overawe the class that never misses an opportunity to steal the most sacred treasure of citizenship -a free ballot. The false voter is here, the repeater is on hand; the bulldezer is in the city in number, and these will be at the polls to-day to crowd out the men who are entitled to vote. If our people will come to the polling places and remain there in considerable number, the laws can be enforced, every man entitled given full opportunity to vote, all brow-beating and intimi. dation prevented and an honest election conserved. All that is needed is the moral effect of half a hundred good and true men blocked, and the San Francisco contingent will proceed to get in its work.

WORKING REPUBLICANS.

Republicans should remember that "talk" will not win to-day, alone. Ar gument does convince, but it is not to be confined to the groups at the polls. Get out and work, by bringing in the indifferent, the negligent, the undecided. It is the office of the good citizen to take active part in the politics of his country, his State, his town. It is because so many neglect the duty that there is so much of wrong, outrage and trampling upon human rights in our elections. You can no more expect good government from neglected ities, by the people who have most to lose under bad government, than you can

DAILY RECORD-UNION expect good fruit from trees you abandon to the persites and non-collivation. It is to the parasites and non-cultivation. ADVERTISEMENT OF HALE BROS. & CO.

How About Them?

YOU HAVE SEEN DIFFERENT brands advertised in scores of papers, and know their claims. But DO YOU know the Shoes? WE DO, and know thoroughly, from examination, every competing Shoe at that price. The Shoe which we sell at \$3 was made for us according to our order, and made with an eye to surpassing, in style, material and workmanship, the sorts which are advertised profusely. It is worth at least 50 cents more per pair than any of its rivals. WHY? Simply because the money spent in advertising has been centered by us in producing a superior Shoe. In other words, it costs the makers on an average of 50 cents a pair to pay the 10,000 newspapers for their space. All we ask is comparison for proof.

AT \$2 50.

This Shoe is the same quality as the specialty \$3 Shoes advertised by other houses. It is made in Gaiter Style only, of full-stock Calfskin, with medium soles. Sizes, 5 to 10.

PLATFORM

THE AMERICAN PARTY OF THE CITY OF Sacramento reaffirms the principles enun-isted in the platform adopted by the American tate Convention, held in San Francisco July 1. Unequivocally and emphatically we favor high license tax for the sale of intoxicating

1. Unequivocally and emphatically we favor a high license tax for the sale of intoxicating liquors in the city of Sacramento of at least \$000 per year, payable quarterly in advance, and we hereby pledge our candidate for Second Trustee, if elected, to use his best efforts and to vote for such a license tax.

2. We believe in the enforcement of all laws enacted by the Legislature, and all ordinances ordained by municipal authorities. We denounce the present inefficient, dishonest and disreputable condition of the police force of the city of Sacramento. We arraign it to the people of this city as the most corrupt, ineffective and cowardly force possessed by any city in this State. We condemn its subserviency to one man, its connection with the gamblers, the thieves and the lowest elements of Sacramento. We declare it a disgrace to a law-abiding people, and an outrage to decency.

3. Dishonesty in politics is no more to be tolerated or encouraged than dishonesty in private transactions. We arraign the Republican party of this city for duplicity and cowardice. With discourtesy, its Convention has declared against high license, yet has nominated a man who, in private conversation, avers his allegiance to that principle, but who refuses publicly to declare his sentiments for the alleged reason that by doing so he would lose the votes of those opposed

principle, but who refuses publicly to declare his sentiments for the alleged reason that by doing so he would lose the votes of those opposed to high license.

4. Believing that with its growth and prosperity, the needs and requirements of Sacramento city have increased, and recognizing that our Government is hampered and retarded by a charter intended only as a temporary expedient, we hereby announced ourselves in favor of a new charter for the city of Sacramento: but we desire the retention of the Funded Debt Commission.

mission.

5. We consider a crime against the elective franchise the greatest crime that can be committed in this country. With horror and dismay we behold the repeated assaults of the Republication of the Acceptance of City word the honesty we behold the repeated assaults of the Republican party of Sacramento City upon the honesty and purity of the ballot. We declare that any party one-half of whose members systematically engage in the intimidation of decent voters, the perversion of the will of the majority, and the stuffing of the ballot-boxes, is undeserving the confidence or the support of the people. The primaries of the Republican party in this city are characterized by viciousness, corruption and crime. To such an extent have the adherents of this party carried their corruption and dishonesty that even the honest voters of the party stand aghast. We declare that nothing can be hoped from a party that connives at and condones the outrages recently committed in the Republican primaries; and we call upon the respectable and honorable citizens in Sacramento to unite with us in our efforts to protect the ballot-box and our endeavors to purity elections.

The insignificance, pusillanimity and puerility of the Democratic party of this city place that party beneath our notice.

LOCAL INTELLIGENCE.

NEW CHARTER.

A New Charter Man I isposes of the Bugaboo About Stevens and a Charter. EDS. RECORD-UNION: Permit me, as one who favors the framing and adoption of a new charter for the city, to explain that the Board of Trustees have nothing to do with that question further than that it is within their power (and it appears to me to be clearly their duty also) to order the election of a Board of fifteen freeholders. whose duty it shall be to prepare and propose such new charter. The adoption or rejection of such charter is with the electors. I do not understand that any one who has declared himself as being in favor of a new charter has meant otherwise than that he would be in favor of such new charter if upon fair consideration it should appear to be a decided improvement upon our present system of management of our present system of management of municipal affairs. Even after receiving a majority vote of the electors, such proposed charter must be approved by the Legisla-ture before it becomes the organic law of

the city.

I write this because there seems to be an impression that the Second Trustee has greater power in regard to a proposed charter than he actually possesses. His only power is to vote to permit the people to elect fifteen freeholders to prepare such

In my judgment a desperate attempt is being made to defeat the Republican can-didate for the office of Second Trustee by indirection. Both the questions of the adoption of a new charter, and of high license or low license for the saloons ought to be submitted to the voters as direct issues, and the Board of Trustees should be governed by the result.

I am confident that John Stevens, if elected, would be governed by the expressed will of the majority. The people are to be congratulated in having before them a candidate who has sufficient independence of character not to pledge himself to a line of official conduct before he knows what will be for the best interests of the city, and what our people desire. Respectfully, CLINTON L. WHITE.

California Amateur League From the present outlook, things are to be very lively in amateur baseball circles this season. A league will be formed with clubs from Sacramento, Stockton, Woodlard and Vallejo, which shall be known California Amateur League. A me will be called in the near future, when a schedule will be arranged and

everything satisfactorily settled so as to commence the season on March 24th. The Lavensons, the amateur team representing Sacramento in the league, have organized and selected "Kelly" Broich, the witty and genial baseball critic, as Manager. The team is composed of the following excellent ball players: Catchers—McHale, Hughes. Pitchers—Baltz, Managan. First base—Caverly. Second base—Denny. Shortstop—Dawson. Third base—Hughes, McDonald. Left field—Menke. Center field—Malone, McDonald. Right field—Baker, Baltz, Managan.

A vote for Dodge is a dodge to defeat Stevens. Don't dodge.

Good for the Farmers. The average Signal Service maximum and minimum temperature yesterday was 56°, being 2° warmer than the normal for that day. The high est and lowest temperature was 67° and 45°, with southerly winds and showery weather. The rainfall up to 5 o'clock last evening was .38 of an inch, making 10.88 inches for this season, as against 9 86 inches to an equal date last year. The barometer last evening was It stood at 29.84 inches at 5 P. M. yesterday. The heaviest precipitation during the 24 hours ending at 5 P. M. yesterday occurred at Sacramento. Republicans, prove true to your party to-dsy, and stand by your ticket.

Governor Waterman has granted a pardon to James Smith, convicted of petit larceny and battery in San Francisco July 21, 1888, and sentenced to eighteen months imprisonment in the County Jail.
Smith's conduct previous to his conviction was that of a man of good moral character, and his downfall was due to a spree in which he indulged on July 4th. He is at present acting in the capacity of assistant keyman in the City Prison, and the officials speak of him in the highest terms. His former employers are ready to take him back into their employ, and in view of these faces elemency is granted.

Beware of traders to-day. Prove true to the Republican ticket.

GENERAL EXPRESSION.

WHAT THE PEOPLE THINK OF THE CANDIDATES.

Mr. Stevens a General Favorite for

Second Trustee - He is In-

dorsed by All Classes.

We give below additional expressions of prominent citizens upon the candidates and outlook for to-day:

G. W. Inglis—I think Mr. Stevens is an excellent man for the position and he will get my

vote.

C. T. Wheeler—If we cannot elect such a man as Mr. Stevens over his competitor it is time the people knew it, and we had better "get up and get"—if that is true. Mr. Stevens is a first-class raan in every respect.

W. W. Marvin, Jr.—Am very glad to be able to vote for a first-class man, and one who has stamina enough not to be forced into pledges.

C. H. Denton—I am for John Stevens. He is my choice for Second Trustee, because I know he will do exactly what he says he will do. He is competent and trustworthy and I want nothing more.

Ing more.

George Shoemaker, Jr.—I stand for Mr. Stevens because of the principles he represents.

Hon. Newton Booth—I think Mr. Stevens is as good a man as could be named for the place, and deserves the earnest support of every good citizan.

and deserves the earnest support of every good citizen.

H. B. Hubbard—Everybody knows how I stand. I have confidence that the good judgment of the people will elect Mr. Stevens.

E. M. Leitch—Mr. Stevens' card in answer to Ben Welch's letter is perfectly satisfactory to me. I was going to vote for the head of the American ticket, but now I am not, and shall vote for Mr. Stevens and work for him from sunup to sundown. Count me in.

J. F. Slater—I am for the Republican ticket from top to bottom, and shall work for it the best I know.

Chris. Green—I have known Mr. Stevens for thirty years. He is an honest, upright citizen. I am satisfied he will be elected, and will give the fullest satisfaction in the office of Street Commissioner.

I am satisfied he will be elected, and will give the fullest satisfaction in the office of Street Commissioner.

J. A. Lefavor—Mr. Stevens is an old resident. and understands the city's needs. He will make a splendid Second Trustee.

C. M. Prodger—I am in favor of the kindergarten, and believe that sundry drunken parents should be killed, so that we would have no further trouble with their children.

Frank Miller—John stevens does business on the extreme west side of town. His residence is on the east side, but his sympathies and interests are with all. His fairness will be a guarantee of the strictest impartiality in dividing up the city's patronage. I have not met him nor had any communication with him for months, but I know his past record.

Frank Gregory—Mr. Sevens is a good man. He should be elected. I feel satisfied if he is elected he will serve the city to the best of his ability. I shall support him.

John Shields—I am for Mr. Stevens. I believe him to be a good man for the place.

W. R. Strong—I am in favor of Mr. Stevens because he is a first-class man, and I know will do his duty without fear or favor.

E. E. Meyer—I can indorse all good things that have been said of Mr. Stevens, and shall vote for him.

Walter Wylie—I warmly indorse John Stevens and believe he is the man of all others for the place.

J. H. Platt—I am in favor of Stevens and will

at the following places:

stand for him. He did not need to pledge himself.

Ira Conklin—I believe Mr. Stevens pledged himself all that any consistent man could when he accepted the nomination. It will be a very desirable thing that Mr. Stevens goes into the office unpledged to any faction.

J. A. McIntyre—Have known Mr. Stevens a long time, and if elected he will act for the city's best interest at all times.

L. L. Lewis—I am for Stevens solid, and he is going to be elected. I know the man through and through, and that's why I am for him.

Wm. Ingram, Jr., (Manager for the Huntington-Hopkins Company)—John Stevens is 'gittedge.' He has had charge of the draying for the Huntington-Hopkins Company for the past fifteen years: we have no written contract or "pledge;" during that time we have never had a word of complaint to make. His men have told me time and again that he pays them every saturday night higher wages than any other drayman, and that they would rather work for him than any other man. If I mistake not, at the close of the war he was the first man in Sacramento to give employment to discharged

Sacramento to give employment to discharged soldiers; I understand O. P. Dodge was one of the number. If elected, I will gua antee that stevens will make one of the best Trustees that we have ever had. we have ever had.
Valentine Arcega—I shall vote for Stevens
and the Republican ticket.
M. T. Sauza—I shall vote for Mr. Stevens. I
am a Republican.
P. Gauzetti—Stevens is my man for Second

Frank Schideler-I propose to put in a plum ote for John Stevens.

Dr. W. A. Briggs - I believe character is better han promises; therefore I am for John Stevens.

P. S. Chaffield - I am in favor of John Stevens and intend to vote for him. He knows what is and intend to vote for him. He knows what is for the good of Sacramento.

Dr. F. B. Sutliff—I have no vote here yet, not having been in the State a year, but if I had I would vote for a man who refused to pledge himself, but whose character was a guarantee that he would act right in all things after elected. A. D. Browley-I believe in John Stevens, but O. P. Willis—I am for Mr. Stevens first, last

and all the time.

M. J. Dillman—I believe the course pursued by Mr. Stevens, in not pledging himself, is a commendable one. Having confidence in his integrity and business judgment, I shall cheerfully yelf for him.

A. J. Senatz—I want to see Stevens elected. I am a Republican, and I think Stevens is the right man in the right place.

J. G. Martine—I am for Stevens, because he is an honest man, an independent man, an incorruntials man. A. B. Cheney—I have known Mr. Stevens since 1871, and have yet to find a more upright man or one who would do more for the test interests of the city than he. He is my man for

D. J. Simmons—I have but one vote, and shall cast it early for John Stevens.
S. H. Gerrish—I desire to see John Stevens and the entire Republican ticket elected, and shall vote accordingly.
A. Abbott—I am for the Republican ticket. I betteve it is a good one.

A. Abbott—I am for the Republican ticket. I believe it is a good one.
Charles T. Jones—I am for Stevens. There could not have been nominated a better man.
Mr. Stevens will be elected.
John W. Feeves My knowledge of Mr. Stevens dates back twenty five years. He is a first-class man, and he will have my vote.
Colonel C. V. Kellogg—Give me the record of a man like Stevens, everytime, in Stevenence to the pledges of a man who will make them to catch votes.
H. Cronkite—Stevens is my man, and I shall vote for him early.
C. E. Adams—Stevens is a Republican and so am I. He will get my vote.
H. A. Burnett—The ticket is one of the best ever nominated, and suits me.
J. F. Hill—John Stevens is good enough for me.

Denny clung to the up-turned boat but poor little Tommy Powers was drowned mains were taken from the river about 5 o'clock last evening. He was nine years of age, a bright little lad, the sunshine of

me.

E. A. Burr—I think John Stevens is the right man for the right place, and shall vote for him.

D. McKay—I do not know Mr. Stevens, but hear him highly spoken of. We have ten solid votes for him in our establishment.

F. A. Jones, a member of the Republican County Central Committee—I do not think a better choice could have been made. Mr. Stevens has my hearty support.

Merrill O'Dell—John Stevens is one of the squarest and most level-headed men in the town. They don't make any better, and if all our citizens were as exemplary as he we would have very little use for courts. He will be elected.

Harry H. Love—I am not a political prephet if Stevens is not elected. He will poll an immense vote. I know of a number of Democrats who will vote for him because of the action of the saloon men on Sunday.

John Watt—'Am I for Stevens?' Well I should say yes. I like that man from the soles of his feet to the crown of his head, There is no fcolishness about him. He is a thorough business man, through and through, and the tool of no one. I shall vote and work for his election.

"Hy" Garrett—John Stevens is a first-class man, and one that is liked by all that know him. I know scores of Democrats who are going to support him, and of course he will carry the Republican vote.

L. Elkus—I am a Republican, and as such cannot go back on my ticket. I regard Stevens as a superior man and citizen, and predict his election.

Samuel Blair, who was in the Board of Supe

Samuel Blair, who was in the Board of Supervisors for several years, is a great admirer of John Stevens, whom he says cannot be beaten at the polls. He will poll a silent vote that will surori-e you, and the entire Republican ticket will be elected, as it should be.

E. J. Clark—The Republican is a most excellent ticket, the candidates are first-class men, and i see no reason why any good Republican should scratch any man on the ticket. John Stevens will make as good a Second Trustee as we have ever had, and he will "get there," sure.

point and did so. Stevens will be elected by a rousing majority.

J. T. Griffitts - Stevens is a man of excellent character and first-class business ability, and will surely win at the hands of the people.

James Doody, candidate before the late City Republican Convention for City Auditor—You can't put it too strong for me I am for John stevens and the Republican ticket from top to bottom. There is no soreheadedness about me.

Luther Harris—I am in the saloon business, but am for Stevens and the Republican ticket. I don't believe the high-license question is involved in this election, and even if it was I would stick to my ticket. Let them put it up to \$100 a month if they want to. I'll either pay it or quit the business, and I don't think I would quit, either.

John Skelton—For Stevens? Every time, and we are going to elect him, too. I have known him a quarter of a century, and I know him to be trustworthy, pledged or unpledged.

Charles Schwartz—Not if I can help it, shall they defeat John Stevens. We are for him, and trust him.

But veritable things of beauty have they now become in design and weave. Of course the best, the handsomest are from Scotland. The trick of weave and the taste must be awarded to our sturdy across-the-sea cousins. They have tried to please the world at large in design and coloring, for they have given that great It the privilege of picking and choosing from a myriad of styles.

Right here the counters are piled high with the jaunty stuffs-huge plaids in rainbow tints crowding soft browns and drabs in wee pin checks. The newest designs are in blocks-vieux rose and cream, black and white, taking the lead, with a host of others close behind.

Nothing so neat, so durable as a Gingham. Nothing more fashionable for this season.

Those at 35 cents resemble the sheer crispness of Organdie-hardly more so than others at 30 cents. The 121/2-cent Ginghams are a trifle heavier-but run to beautiful stripes and plaids with as much freedom as their higher-priced rivals.

CONDEMNING WELL WATER P. A. Humbert sent in the following munication, which was read by the Mayor and ordered placed on file:

Mayor and ordered placed on file:

To the Honoroble Eugene J. Gregory, Mayor of Sacramento City, and the Board of City Trustees—GENTLEMEN: In answer to the communication received from your honorable Board referring to me the protest of Dr. G. L. Simmons to the report I presented to you on the water supply of Sacramento city, together with your request for further facts, I will state that:

1. I recommended that a pump capable of pumping 10,000,000 gallons daily be bought, and a stand pipe erected for the distribution of proper fire and house pressure. This machinery I estimate at \$85,000.

To erect the machinery upon the wells, sink these wells, bring and distribute the water into

mate at \$85,000.

To erect the machinery upon the wells, sink these wells, bring and distribute the water into Sacramento city, would cost \$250,000, at a very conservative estimate. I recommended a plan which can be made a success, and the cheapest. It remains for the people of facramento city to \$2,000, or spend \$85,000 for a certainty.

2. It would be far more satisfactory to me to have the report presented by me to your honorable Board published in full; by so doing you would at once remove the impression conveyed by Dr. G. L. Simmons, that I recommended any particular filtering system.

A POINTER ON RIVER WATER. I claim as an engineer, that to insure at all iciaim as an engineer, that to insure at all seasons of the year clear water in sacramento city, the filtering of the water of the Sacramento river is practicable, and furthermore is the only feasible way to introduce ciear water into Sacramento city, except at great cost from the mountains. I also claim that the death rate of Sacramento city—being 84 per 1,000 inhabitants—shows that the water of the Sacramento river is good—this rate being below that or most Eastern cities.

ny particular filtering system.

able more particularly to strangers, and filtering is an improvement which the future will demand as a luxury; and was so stated in my report, and therefore recommended. No estimate was given as to the cost of a filtering plant, as I had not decided which system to

When Dr. Simmons affirms that I state that

The water in these wells is higher in the winter than in the summer. It rises and falls with the American river. During one of the great floods attempts were made to plug these weils, showing them to have a connection with the river. If these wells had in their downward the river. If these wells had in their downward course penetrated an underground river or stream, the hight of the water should remain alike in summer and winter, controlled only by the amount of water taken from the wells by the pumps, and this up to the present being an insi, nificant quantity, should not affect the level of the water. It when we voted for the new pumps.

Trustee Wolf said he preferred to have a special election to settle the high-license question, and did not want it mixed with the water question. He was willing to appear to vote for it when we voted for the new pumps.

The hight of the water must very nearly de-ermine the elevation of the source of this vater. This water level is from nine to twelve eet below the surface of the valley, conse-tently the source from which these wells retwelve feet below the surface.

The American river, Burus slongh, and other water-courses in the valley, appear to me to most probably furnish this, and when it is taken consideration that the formation is aliuvia

minto consideration that the formation is alluvial, infiltrations are a probability.

With all respect to Dr. Simmons and the respectable gentleman whom he quote. I would like to suggest that a physician disgnoses a case by examining the condition of his patient, and an engineer is taught to build a theory on facts—not to theorize as to the facts.

4. As to the borings Dr. Simmons suggests I have failed to have made, I can no exactly understand their necessity; a number of wells have seen bored; they have all penetrated the same strata. I have had the pleasure of talking with well-borers, and it is from these gentlemen that I received the information as to the formation which these walls penetrated. To have made borings wou'd have entailed upon have made borners would have entatied upon he city an expenditure of money which would have had only as an object to prove that the rentlemen he for many years have lived in four mid t and bore these wells had told me the ruth. I could see no reason for recommending his expenditure.

5. In regard to the quality of the water of the A tken web, and o the Hospital well, I will say this—that I had careful tests made, not for minerals, as these had been determined by Mr. Eitel and Professor Price, whose r sults I accept as being correct; but I had the water examined by the method of Dr. Koch, of Berlin, as to amount of migrogramined and reference in the I. the method of Dr. Koch, of Berlin, as to amount of micro-organisms or germs contained in it. It was not my intention to publish these results, as they might injure land values about the wells, and having satisfied myself that there existed sufficient other reasons of an engineering character to make impracticable to use these wells to supply the city with drinking water, I withheld the results of these tests from my report.

In answer to Dr. S mmons' assertion that this is absolutely pure water, and would be a boon to have it introduced in Sacramento city, I beg to have it introduced in Sacramento city, I beg to submit the following facts:

The water of the Aitken and of the County Hospital well gave the following result: Aitken well, 15 grains of water showed after three days, when mixed with prepared gelatine on refrigerator glass plates, more than 20 000 colonies; at dute County Hospita, well over 4,000; each one of these colonies, while repr. senting mill ions upon millions of bacteria, represent only one term. The Aitken well gave two kinds of families, the Hospital well only one: 15 grains of Spring Valley gave 250 colonies; 15 grains of Sakland well water gave 50 colonies; 15 grains of artusian well water gave 220 colonies; 15 grains of fartisian well water gave 220 colonies; 15 grains of faitken's well water gave 20,000 colonies; 15 grains of County Hospital well water gave 4,000 colonies. gave 4,000 colonies.

This table shows the excess of germs in Sacramento wells. The eason for the excess of germs in the Aitken well is probably due to the age of the well and its proximity to Burns

Dr. kieh', who made these examination Dr. kieh', who made these examinations, saye: "If I may be allowed to express my opinion in regard to the sanitary qualities of these two samples of water, I wish to state that I deem sample No 1—aitken's well—entirely unfit for drinking purp ses, and sample No. 2—County Hostital well—tolerably good."

I will add that the water of the Aitken well and of the county Hospital is not such water as should be advocated for the use of a large city. I am satisfied that to the use of this well water throughout the Sacramento valley can be Should be advocated for the use of a large city. I am satisfied that to the use of this well water throughout the Sacramento valley can be attributed a large amount of malarial and other fevers. In this I am only expressing the opinion of modern scientists and doctors, who generally condemn wells as being a receptacle for the breeding: f germs of typhus and other fevers.

Dr. Cyrus tdson, of New York, in the Scientific American supplement, No. 687, of March 2, 1889. says: "During the past year I have vis ted twenty towns supplied with water from dug or driven wells. In every instance the supply was polluted, and in the case of twelve was responsible for an outbreak of typhoid."

To this allow me to add the opinion of Dr. H. Letherby Medical Officer of Health of the city of I ondon until his decease in 1876. In his opinion on river water for drinking—more especially reterring to the supply of London from the Thames—he says: "I have arrived at a very decided conclusion that sewerage, when it is mixed with twenty times its volume of running water and has flowed a distance of ten or twelve miles, is absolutely destroyed: the agents of destruction being infusorial animals, aquatic plants and fish, and chemical oxidation." To this let me add, that I can find no evidence which would tend to show that any city would be justified in using well water as against running water.

6 In conclusion, set me state that I am too deeply interested in the welfare of Saeramento city to advise such a doubtful and expensive experiment as the one suggested by Dr. Sim-

mons to be tried, which would, in my opinion, be an engineering failure and have a result criminal in its ending—that of increasing the death rate. Respectfully P. A. Humbert, C. E., Chief Engineer Folsom W. P. Co.

CLOSING THE DIVES. Mayor Gregory said there was much complaint among the people because dives were not closed by order of the Trustees. The citizens forget that as far back as last October the Trustees passed Ordinance No. 237, which places the dives really in the hands of the people. Since that ordinance was passed there has not been a single charge filed with the Board. The ordinance referred to reads:

The ordinance referred to reads:

Section 1. It shall be unlawful for any person or persons to hereafter open, establish or conduct any barroom, public saloon or other place where wines, spirituous or malt liquors are sold by the glass or bottle, to be drank upon the premises, or any theater, variety show or other place of amusement in or on any public street within the limits of the city of Sacramento, without permission from the Board of Trustees, the application for said permission to be made in writing to the Board of Trustees, and same to be accompanied by the signatures of a majority of reputable citizens residing in the block wherein said place is desired to be opened, petitioning the Board of Trustees of Sacramento, and signed by reputable citizens, setting forth that any barroom, public saloon, dance house, the ter, variety show or other place of amusement maintained within the city limits, is conducted in other than a lawful, orderly, reputable and decent manner, shall be deemed sufficient cause for the immediate revocation of the city license which may have been issued for the place designated in the complaint, and it shall be the duty of the Chief of Police to close said place at once, provided the complaint shall be signed by a majority of citizens residing in the block wherein said unlawful place may be conducted.

In this connection, the Mayor said, the

In this connection the Mayor said the notorious Mrs. Anderton had opened up a new dive on Front street, between I and J. She had been complained of, and he called to see if she had complied with the ordinance. She replied that she had not and would not. The Chief of Police should immediately close the place. He asked that a communication be sent to the Chief to close Mrs. Anderson's place and all others that were in conflict with the ordinance. It was so ordered, unanimously. A resolution of intention to improve the alley. I and J, Tenth to Twelfth, was

passed.

James Touhey offered the lowest bid for grading and paving the alley, K and L, Seventh and Eighth, and the contract was awarded to him.

HIGH LICENSE. L. S. Taylor, P. H. Russell and Rev. W. C. Merrill appeared before the Board and asked that a special election be called at some stipulated date, at which the citizens could vote upon the question of high license. Their request was based upon the statement made by S. C. Denson in vester-

day's RECORD-UNION to the effect that the Board had already agreed to increase the revenue of the city by increasing the license on retail liquor dealers.

The Board admitted the truth of the statement. They had at an informal session discussed this matter, and all agreed that it was for the best interests of the city. The City Collector, however, had questione the propriety of the step, expressing a fear that he would be unable to collect it. The matter had been standing for a short time,

out would be considered again in a few time, the day before a general election, to set a date for a special, and declined to do so. Mr. Russell said it would be a good time to vote for it when we voted for the new

Heacock said he only wished to call the attention of the Senate to the fact that the bill proposed to sell for \$200 a property which he believed to be worth \$50,000.

Caminetti said that there were other settlers upon the same land and had as much right to purchase as Mrs. Quinn.

Byrnes and Britt urged the passage of the bill and Goucher read a petition from Mrs. Quinn setting forth her claim to the land, a tax deed to the land and tax receipts covering many years.

A long discussion followed in which Dargie, Meany and DeLong tayored the bill, while Caminetti and Hinshaw opposed it. The bill was passed by a vote of 32 ayes to 6 noes.

A QUESTION OF PRIVILEGE. Bowers rose to a question of privilege in regard to the action taken by the senate to-day, in taking from a committee and placing on the special file A. B 490, to set off Coronado Beach from the city of San Diego. He charged that during his absence from the chamber, or while his attention was engaged with something else, Senator Jones had made a motion to take up the bill, which affected only his city, and place it on the special file, and that the motion had prevailed because the Senate did not understand what was going on. He denounced the act in unmeasured terms, as one of extreme discourtesy to him.

Jones rose to a question of privilege and said discourtesy to him.

which indicated that he was failing to do what he had pledged himself to do. He produced a letter written by Bowers and a petition upon which the Senator's name appeared.

Bowers admitted that he worte the letter, and said there was nothing in it he wished to take back, but he pronounced the name on the petition a rank forgery. He became considerably excited, and showed up the bill and the Coronada Beach Company in a very unenviable light. He declared that the whole purpose of the bill was to turn over the harbor of San Diego to the Atchison. Topeks and Saufa Fe Railroad Company. That company already had all the franchises in the city of San Diego to the Atchison. Topeks and Saufa Fe Railroad Company. 1.064 acres, more or less, situated on ANDROS and to the Committee on City, City and County and Town Governments.

Spracue tried hard to get the bill sent to the Judiciary Committee, but the motion was voted down by a vote of II ayes to 25 noes.

Jones moved to amend Bowers motion so that the committee should report the bill back at 2 o'clock to-morrow and that it should then go on the special file.

Bowers accepted the amendment, and the motion as amended prevailed.

With the immense settlement that must in the nature of things follow the subdivision into small farms or such a large area of valuable and productive land around BAKERS-FIELD; with the steady stream of immigration that will pour into this section of the country, transforming the county into one gigantic colony, with its countless number of orchards and vineyards, drawing to it men of enterprise and capital, BAKELSFIELD, with its incomparable water power, and other natural advantages; with its railroad facilities at hand, and the almost positive certainty of being the terminal point of another line, will being the terminal point of another line, will grow to, and become, beyond a doubt, a city of great proportions, and town lots will become very valuable. Within the last year extensive improvements have been projected and completed at BAKERSFIELD. The SOUTHERN HOTEL, a large and handsome brick and iron structure, costing \$500,000 will be convented.

For speculative or practical purposes, the villa lots included in this offering must commend themselves to all. Their proximity to the railroad and the business center of BAKERS-FIELD, and the remarkable fertility of the soil make them extremely valuable for suburban homes, while their future worth can scarcely be overestimated.
